

FOR FREELANCE EMAIL MARKETERS

Flawless emails. One-click sign-off.

Run every client email campaign through a 14-point automated QA check, then get a clean, timestamped approval — without chasing “looks good” replies over email or Slack.

96%

of emails contain at least one error before sending

LITMUS

\$16k

average revenue lost from a single email mistake

EMAIL ON ACID

10s

from test send to full QA report in seconds

SENDCLEARED

14

automated checks run on every email

SENDCLEARED

WHY USE SENDCLEARED?

✓

Catch mistakes before your client does

Broken merge tags, missing alt text, dead links and spam triggers — flagged automatically before you hit send.

14-point QA

✓

A full change record, not just a reply

Clients approve through a magic link, with a timestamp and their name attached — proof you didn't have before.

Audit trail

✓

Works with the ESP you already use

Klaviyo, Mailchimp, ActiveCampaign or other ESP with a “send test” button — add your address once.

Any ESP

HOW IT WORKS

1

Send your test email

Address your ESP test send to your unique SendCleared inbox.

2

Get your QA report

14 automated checks run in ~10 seconds, flagged critical, warning, or pass.

3

Fix and re-run

Fix issues in your ESP, re-send, re-run. Full version history saved.

4

Send the approval link

One click generates a magic link. Client approves in one tap.

Send with confidence.
Every single time.

Your first 3 approval links are free. No credit card required. Set up in 2 minutes — just add your SendCleared address to your ESP test list and you're ready to go.
