SENDCLEARED

WHY IT'S WORTH SWITCHING

Catch mistakes before your client does

Broken merge tags, missing alt text, dead links and spam triggers — flagged automatically before you hit send.

14-point QA

A record, not just a reply

Clients approve through a magic link, with a timestamp and their name attached — proof you didn't have before.

HOW IT WORKS

1

Send your test email

Address your ESP test send to your unique SendCleared inbox — clientname@check.sendcleared.com

2

Get your QA report

14 automated checks run in ~10 seconds, each flagged critical, warning, or pass.

3

Fix and re-run

Fix issues in your ESP, re-send the test, re-run. Full version history saved.

4

Send the approval link

One click generates a magic link. Your client approves in one tap — no login required.

**Send with confidence.
Every single time.**

Your first 3 approval links are free. No credit card required. Set up in 2 minutes — just add your SendCleared address to your ESP test list and you're ready to go.
